

stylish

with a patented
click system

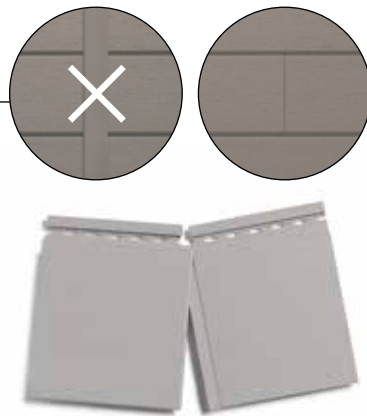

**Make your home's
new exterior click
into place instantly!**

What is dumaclin?

Beautiful exterior walls make a great first impression. It's important that they look their best. Dumaclin cladding gives your exterior walls a brand new look in no time. Attractive, low-maintenance, durable and super easy to install.

dumaclin
quick and
easy to install

Stylish, thanks to a concealed click system

- + revolutionary patented click system
- + no more unsightly connection profiles that fade over time

All Dumaclin products are quick and easy to install with just one finishing profile. This multifunctional profile is the perfect finish for outside corners, inside corners and edges. Convenient, right?

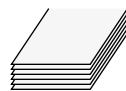

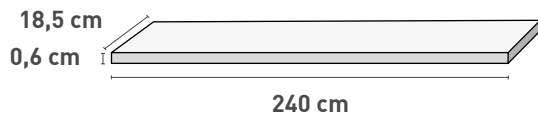

We also provide start profiles and ventilation profiles (not visible after installation). Two more click profiles are also available: an edge profile and a corner profile.

Nothing but advantages:

- short panels (240 cm)
- light
- easy to transport
- little cutting residue
- installation by 1 person possible
- weatherproof
- easy maintenance
- matte finish with a fine wood texture

**Multifunctional profile:
1 profile for all corners
and edges**
